

PRODUCT RELEASE ANNOUNCEMENT

KENNEDY TECHNOLOGY GROUP

RELEASE DATE: 1/4/05 - Part #65232R0

Market: GoldWing GL1800

Product: **BeepSet**

Model: 1800

Part Number: 95329

Price: USD 69.95

Availability: 1/15/2005

Photo and assembly drawing available at : www.cellset.com

Description of Model(s) : **BeepSet** is a backup beeper that emits a loud (100 dB at 24"), periodic alert tone when the bike is placed in reverse. The beep can be disabled by applying the brake.

BeepSet is microprocessor controlled so there are no external switches required. It features a tamper resistant front-mounting case with threaded attachment ring. A snap-fit rotary volume control provides variable attenuation up to approximately 15dB.
