

PRODUCT RELEASE ANNOUNCEMENT

KENNEDY TECHNOLOGY GROUP

RELEASE DATE: 06/18/07 - Part #65339R0

Market: Touring Motorcycles without an Auxiliary Audio input.

Product: *FM Modulator Power Relay*

Description: This unit was designed to connect between a *CellSet*, *MC/GPS* and either a simple switch or relay timer switch assembly. When the *CellSet* is switched to route GPS audio to the auxiliary input, power is applied to the FM Modulator. When the *CellSet* is switched to route GPS audio to the bike intercom system, power to the FM Modulator is removed.

Part#	Model	MSRP (USD)	Notes
95443	FM Modulator Power Relay	45.00	For use with MC/GPS and Applies or removes power to FM Modulator
