

PRODUCT ANNOUNCEMENT

KENNEDY TECHNOLOGY GROUP

RELEASE DATE: 11/07 - Document #65358R0

Market: 1995 and newer model year, Harley Ultra Classic Motorcycles.

Product: **CellSet, MC/GPS - Harley**

Part Number: 95436

Availability: December, 2007

Description: This **CellSet** allows the user to connect a multifunction GPS (e.g. Zumo 550) to his Harley audio system.

It physically installs under the faring. Electrically, it installs between the Harley audio amp output and the rider and passenger headset headphones and mic.

All features of the Harley audio system remain intact.

It allows the rider and passenger to enjoy all the audio functions of the GPS (alerts, stereophonic music, and cell phone).

It also provides an input for an addition Alert Device, such as a radar detector.

NOTE: GPS and Alert Device audio is not available in the bike's external speakers.

It provides a mute function to momentarily lower Harley audio levels in the presence of GPS or Alert Device audio.

It is compatible with all Kennedy device harnesses.

More information (assembly drawings, installation instructions, and user sheets) can be found at www.cellset.com/multigps.html

MSRP: USD225.00
