

User Sheet - *MuseSet2*

Document part number 65451R0

www.cellset.com

Thank you for purchasing our product! We hope it gives you many years of reliable and pleasurable service.

Installation is easy. Connect the power harness that was part of this package to a fused, switched (on and off with bike) 12Vdc power point.

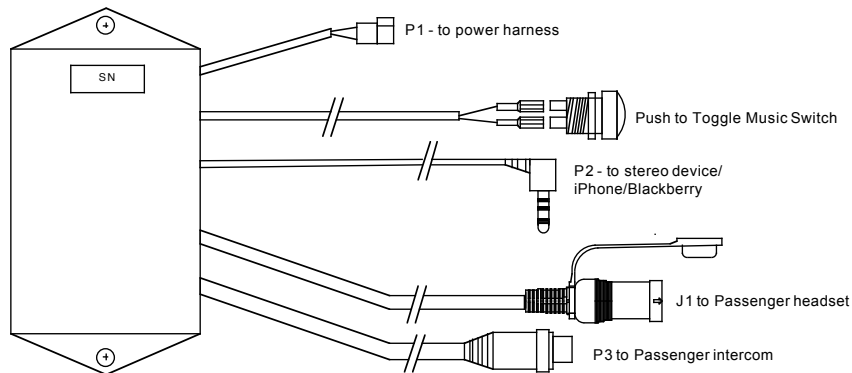

Connect P1 to the power harness you installed.

Connect P3 to the bike's passenger headset connector.

Connect the passenger headset to J1.

Route P2 to a location that offers convenient access to your passenger.

Install the push to toggle switch in a convenient location. This switch is waterproof.

Operation is simple. Press the Push to Toggle switch, and the passenger headset is completely disconnected from the bike's audio system and connected via *MuseSet2*'s internal amplifier to the audio device attached to *MuseSet2*.

If the audio device is an iPhone or Blackberry, the headset microphone is connected to the microphone input of the cellphone.

Press the Push to Toggle again, and the passenger headset is reconnected to the bike's audio system.
